DESCRIPTION

An attractive group of former farm buildings now used for equestrian purposes, for which planning consent has been granted to convert three into individual properties which will offer considerable character. They are offered for sale as a whole or individually in three lots.

LOT 1 - STALLION BARN:

This comprises a detached concrete framed stable barn, approximately 15.3 m x 13.7 m with a generous curtilage that will provide garden to the west and south and ample parking to the north. The consent provides for two storey living space of approximately 2,880 ft². (267 m²) (estimated and not measured), which will include a formal entrance hall, drawing room, open plan kitchen, family/dining area, boot room, utility room, study, cloakroom and two bedroom suites on the ground floor; with the addition of two first floor bedroom suites and a family bathroom.

LOT 2 - MIDDLE BARN:

A fully enclosed barn, approximately 11.2 m x 6.8 m, steel framed with block and metal cladding currently used as a workshop and store with two existing floors.

The planning consent that exists is to link it with an existing bungalow, although it is now to be sold as a separate self contained dwelling, subject to approval of amended plans. It is likely to provide spacious 3 bedroom accommodation on the two floors.

The existing consent provides approximately 1514 ft² (140m²) two storey living space in the barn and 165 ft² (15m²) in the link (estimated, not measured).

LOT 3 - GROOMS BARN:

An attractive traditional style barn with timber clad elevations under a clay tiled roof, which was previously part used for grooms' accommodation. It lies on the eastern edge of the yard and will benefit from being able to create its own access.

3. The planning consent is subject to certain buildings being demolished in the yard and this will be the responsibility of purchasers.
4. The vendor will install a new vehicular access from the public highway for Stallion Barn and Middle Barn. Grooms Barn will have the benefit of its own independent access which is to be installed by the purchaser.
