

An Expert Witness is a crucial resource.

At Batcheller Monkhouse our team of experts are all experienced in their fields, members of the appropriate professional bodies and maintain a significant level of training and professional development, both in their subject and in the requirements of an Expert Witness.

An Expert Witness is a person whose level of specialised knowledge or skill in a particular field qualifies them to present their opinion about the facts of a case during legal proceedings. Whilst most cases settle through negotiation, the ability to ultimately press the case at a Tribunal or Court hearing can have a marked bearing on success.

The key is the appointment of the right expert: one with the depth of knowledge and experience necessary, both to give the right advice, and to persuade the Arbitrator, Inspector, Court or Jury to accept their opinion.

Our Experts

Not all property matters can be agreed by negotiation. When this occurs you must appoint the right expert to represent you, be this at a tribunal, court hearing or, increasingly at a mediation.
